## A message from Dr. Garcia in response to the ABOR meeting, Friday, Aug. 19

"The University of Arizona Health Sciences will continue to fully cooperate and provide any information requested during this process. As demonstrated from the information shared previously with the Board of Regents, we welcome the opportunity to engage in meaningful and substantive discussions of our mission, progress, and plans for the future. We appreciate the continued support and perseverance of our dedicated faculty, students, and staff. We simply ask that this process proceed as expeditiously and fairly as possible so that we may continue to advance our work in support of improving the health of Arizona."
