University of Arizona Construction Update

Bioscience Research Lab (BSRL) Project - new dates for overnight Cherry closures

7/8/16

Rain Delay

As luck would have it, a storm hit the UA area again Wednesday night, so the overnight work at the BSRL project was postponed. Weather permitting, the planned closure of Cherry Ave. between Helen and Mabel was last night to this morning and then rescheduled for midnight tonight, Friday, and open by 6:00 a.m. Saturday.

Looking ahead at the schedule for next week:

Concrete pours for the south side of the site are scheduled for next Monday, Tuesday, and either Thursday or Friday mornings from midnight to 6am. Helen St. will be closed during those times.

A concrete pour on the north side of the site is scheduled for Tuesday night (7/12) at 10pm to 6am on Wednesday (7/13). The concrete pump will be placed on Cherry Ave. which will result in a closure of Cherry for the duration of the concrete pour.

If you have questions, please contact Melissa Dryden, Planning, Design and Construction at mdryden@email.arizona.edu or 621-9251.
