Innovative Medical Education Building Welcomes Students

The eagerly awaited 268,000-square-foot Health Sciences Education Building (HSEB) is the newest structure on the 28-acre Phoenix Biomedical Campus. In an unprecedented collaboration, the six-story, $135 million building was created so the state could expand its medical education facilities. The University of Arizona (UA) College of Medicine - Phoenix has expanded its class size and Northern Arizona University (NAU) has increased its health-related offerings in the building.

NEW! Online RN to MSN Degree Program Launches

The University of Arizona College of Nursing has launched a Registered Nurse to Master of Science in Nursing

University of Arizona Receives $1.4 Million Mine Safety Grant

Environmental and occupational health researchers at the University of Arizona Mel and Enid
(RN to MSN) program via a 100-percent online coursework environment. Designed with the practicing RN in mind, this highly accessible, streamlined master’s program can take less time than most traditional bachelor of science in nursing (BSN) programs, making it an attractive option for RNs who wish to further their education while continuing to practice nursing.

Electronics That Vanish in the Body

Physicians and environmentalists alike could soon be using a new class of electronic devices: small, robust and high performance, yet also biocompatible and capable of dissolving completely in water – or in bodily fluids.

Zuckerman College of Public Health and the Department of Mining and Geological Engineering received a $1.4 million, three-year grant to compare exposures and health effects from operation of underground mining equipment using diesel and biodiesel-blend fuels.

Pregnant during flu season?

The Centers for Disease Control and Prevention recommend that all women who are or will be pregnant during influenza season receive a flu shot. Pregnant and breastfeeding Arizonans with questions about seasonal flu or the vaccine can get answers with a simple toll-free phone call to the Arizona Pregnancy Riskline. Call 888-285-3410 weekdays with questions or click here to use the Ask An Expert online form.
