Husband: Giffords would be OK with flight decision

HOUSTON (AP) _ The astronaut husband of wounded Rep. Gabrielle Giffords says he plans for his wife to be at Cape Canaveral, Fla., as he rockets off on space shuttle Endeavour's final flight.

Shuttle commander Mark Kelly said Friday his wife would be "very comfortable" with his decision to return to the mission, which is set to launch in April. During a news conference Friday, he declined to go into details about Giffords' condition or say how he knows she supports his choice to fly.

Kelly took leave from training after Giffords was gunned down Jan. 8 in Tucson.

Rabbi Stephanie Aaron, who married Giffords and Kelly in 2007, says the couple has been communicating but she didn't elaborate. Aaron says she's sure Kelly made his decision on what Giffords' wishes would be.

CONGRESSWOMAN SHOT-HOSPITAL TRIBUTE

Tribute to Tucson victims dismantled at hospital

PHOENIX (AP) _ Volunteers have dismantled a massive tribute outside the Tucson hospital where U.S. Rep. Gabrielle Giffords and other victims of a mass shooting were treated.

The volunteers removed thousands of candles, cards, photos, stuffed animals and flowers that blanketed the 60 foot-by-100 foot lawn in front of University Medical Center, where doctors performed life-saving surgery on the Arizona congresswoman, who is now in a rehabilitation facility in Houston.

People began bringing the first pieces the day of the Jan. 8 shooting. Six people were killed, including a 9-year-old girl and a federal judge, and 13 were wounded, including Giffords.

The tribute became a place for community members to reflect on the tragedy.

All items from the site will be saved for a permanent memorial in the future.

CONGRESSWOMAN SHOT-SUSPECT

Writing samples sought for Tucson shooting suspect

PHOENIX (AP) _ State and federal prosecutors agreed that the suspect in the shooting of Rep. Gabrielle Giffords and 18 others will be tried first in federal court before any prosecution begins on state charges.

The agreement reached in the case of suspect Jared Loughner was announced Friday by Pima
County Attorney Barbara LaWall and Dennis Burke, the U.S. Attorney for Arizona.

In a written statement, the prosecutors say federal law requires all state prosecutions to be suspended while a federal case is pending.

Loughner pleaded not guilty to federal charges of trying to assassinate Giffords and kill two of her aides.

He will likely face state charges in the attack and federal murder charges for the deaths of Giffords aide Gabe Zimmerman and U.S. District Judge John Roll.

BREWER-INAUGURAL

Brewer's office releases inauguration expenses

PHOENIX (AP) _ Arizona Gov. Jan Brewer's office reports that close to $65,000 was spent on her Jan. 3 inauguration at the State Capitol.

Brewer's office says the expenses included $24,372 for overtime and regular pay for Capitol Police officers and General Services Division employees.

Other major expenses included just under $6,000 for printing, $6,200 for rentals of tables, chairs and tents, and $13,100 for souvenir inauguration coins.

The governor's office says the expenses are being paid from an inauguration fund. Details on donations to that fund haven't been released.

The midday inauguration was held on the plaza in front of the Old Capitol. A reception was held afterward in nearby Wesley Bolin Memorial Plaza.

BODIES FOUND

Bodies of a man and woman found north of Phoenix

GOODYEAR, Ariz. (AP) _ Goodyear police say the bodies of a man and a woman have been found in rural Yavapai County and are believed to be a missing Goodyear woman and her former boyfriend.

The Yavapai County Sheriff's Office says the bodies were located a half mile from Crown King about 60 miles north of Phoenix.

Goodyear police Commander Ralph McLaughlin tells The Associated Press the bodies were found inside a truck and are believed to be 47-year-old Thomas Watson and 31-year-old Tara Shermerhorn.

McLaughlin did not say how the couple died. The search began last evening after Shermerhorn's family notified police that she was missing.

McLaughlin says the couple had broken up, but it's not clear why they were together.

PHOENIX-SPOUSE STABBING

Phoenix man gets prison for wife's fatal stabbing

PHOENIX (AP) _ A Phoenix man has been sentenced to 22 years in prison for fatally stabbing his
wife last year and driving her corpse to the city's police station.

Maricopa County prosecutors say 59-year-old Dwight Wesley pleaded guilty to second-degree murder last October and was sentenced Friday.

Authorities say Wesley was driving 46-year-old Delores Glover to work on April 28 when they got into an argument and she told him she was getting a divorce.

Wesley later walked into the downtown Phoenix police station covered in blood and carrying a knife. His dead wife's body was in his car outside the police station and Wesley turned himself in.

Authorities say the couple had been living together for about three months before Glover was killed.

CAR INTO HOUSE

2 die after car plows into an east Phoenix house

PHOENIX (AP) — Police have released the names of two people killed after a car plowed into an east Phoenix home.

Police say the driver was 30-year-old Russell Hubbard and the passenger was 35-year-old Kimberly Shasteen. Their hometowns aren't immediately available.

Police say both victims were ejected from the vehicle and died at the scene.

The accident occurred shortly before 3 a.m. near 24th Street and Osborn Road when the car lost control and hit the home. A couple inside the home wasn't injured.

Police believe the vehicle was traveling at a high rate of speed at the time of the crash. Officers are still investigating the accident and it's unclear whether alcohol use was a factor.

SWASTIKA BRAND

Civil action filed in New Mexico swastika branding

ALBUQUERQUE, N.M. (AP) — Relatives of a developmentally disabled Navajo man who was branded with a heated swastika have filed a civil lawsuit against McDonald's Corp. and the owner of a New Mexico restaurant.

The action was filed Thursday on behalf of the victim, whose arm was branded using a heated metal coat hanger shaped into a swastika last spring.

The lawsuit, filed Thursday in state District Court in Santa Fe, alleges a McDonald's franchise owner in Farmington, N.M., hired employees in violation of corporate policies requiring a safe environment for customers.

Neither McDonald's officials nor the local owner immediately returned messages seeking comment.

Three men face federal criminal charges under a law that makes it easier for the government to prosecute people for hate crimes.

SIXTH GRADERS-DRUGS

6 Ariz middle schoolers swallow prescription drugs
PHOENIX (AP) _ Authorities say six sixth-grade students at a Litchfield Park middle school needed hospital treatment after swallowing prescription drugs.

The Maricopa County Sheriff's Office says the incident occurred around noon Friday at Wigwam Creek Middle School.

Authorities say all but one of the boys has been released from the hospital. An unidentified student is suspected of handing out the pills on the playground.

Other students told a teacher, and that person looked into the student's backpack and saw marijuana and prescription pills.

School officials called 911 and were advised to send the six students to the hospital as a precautionary measure.

The Arizona Republic says the Sheriff's Office plans to soon serve a search warrant at the home of the suspected student. School officials say there'll be consequences from the incident.

COMPUTER TAMPERING ARREST

Marana man accused of tampering with TV broadcast

TUCSON, Ariz. (AP) _ A Marana man has been arrested for allegedly using a computer to interrupt the local telecast of the 2009 Super Bowl with a 37-second pornography clip.

The FBI and Marana police took Frank Tanori Gonzalez into custody Friday on suspicion of fraud and computer tampering.

Authorities say someone cut into the Comcast broadcast of the Super Bowl game between the Arizona Cardinals and Pittsburgh Steelers that was televised in the Tucson area on KVOA.

Comcast ended up offering a $10 credit to all of its 80,000 subscribers, whether they saw the brief X-rated clip or not, and turned over the investigation to the FBI.

Authorities didn't say what led them to Gonzalez. His age and other background information wasn't immediately available. It was unclear Friday whether he had a lawyer.

YUMA-BANK ROBBERY

YUMA, Ariz. (AP) _ Yuma police say a robber got away with an undisclosed amount of cash after a Friday morning robbery at the 1st Bank Yuma branch.

Once the robber got the cash he fled on foot. Witnesses did not see a gun and there were no injuries.

The case remains under investigation.

SURPRISE CLAIM
$1 million harassment claim filed against Surprise

PHOENIX (AP) _ A former Surprise police detective has filed a $1 million claim against the city.

Alicia Peterson says she quit her job last September after months of discrimination and harassment.

Her attorney says Peterson scored well when tested to become a sergeant last year. But the high scores allegedly triggered a barrage of rumors, insults and other harassment from Peterson's male colleagues who applied for the same job.

The claim says Surprise violated federal and state law by creating a hostile working environment and failed to correct the other officers' behavior. The Arizona Republic received a copy of the claim from the city after making a public records request.

A Surprise spokesman didn't know if the city has responded to the notice of claim, which is a precursor to a lawsuit.

TUCSON LIQUOR LICENSE

Tucson strip club's liquor license transferred

TUCSON, Ariz. (AP) _ The Arizona State Liquor Board has approved a license transfer for a Tucson strip club that was the site of two deadly shootings in 2009.

The board voted 7-0 Thursday to transfer The Candy Store's license from the previous owner to Corey D. Owens, who'll operate the club through a corporation.

The Arizona Daily Star says the liquor board delayed approving The Candy Store's license transfer at a December hearing due to public opposition of the application and because the City Council recommended it not be approved.

Last year, the strip club's owner agreed to pay two fines totaling $90,000 for violations that included repeated acts of violence and selling or using drugs on the premises.

WOLF RECAPTURED

Mexican wolf released last week is recaptured

ALBUQUERQUE, N.M. (AP) _ Federal wildlife biologists say they have recaptured a male Mexican wolf that was released last week into a recovery area on the Arizona-New Mexico border.

Residents of Nutrioso, Ariz., told federal officials the wolf was seen repeatedly in and around their community since being placed into the forest last week. Biologists determined that because the wolf was remaining in an area near humans and not responding to efforts to discourage him, a temporary removal was warranted.

No pets or livestock were harmed while the wolf was in the area.
Fish and Wildlife Service regional director Benjamin Tuggle says the wolf's recapture demonstrates the agency's commitment to act quickly to address problems. He says the wolf's removal is not a setback because it's not considered a permanent removal.

KINGMAN-BURST PIPES

Kingman homes, businesses hit with burst pipes

KINGMAN, Ariz. (AP) _ Freezing temperatures in northwest Arizona caused numerous problems for Kingman Water Department customers.

The Kingman Daily Miner reports temperatures as low as the mid-teens Wednesday and Thursday led to frozen pipes and broken water mains throughout the city's water system.

Kingman City Water Superintendent George Sedich estimated three dozen calls came in Thursday afternoon from residents asking for help with frozen or burst pipes.

Many waterline breaks were on the customer's property and that's something Sedich says the city couldn't help with.

___

ARPAIO-MCDONALDS

Arpaio issues warning to deputies about McDonalds

PHOENIX (AP) _ Maricopa County Sheriff Joe Arpaio is urging his uniformed deputies to use caution when eating at McDonald's restaurants following an alleged incident in Mesa.

The Sheriff's Office says a uniformed deputy was verbally harassed in Spanish by McDonald's food handlers Thursday. The deputy says both he and Arpaio were accused of being racists. The deputy confronted the workers in Spanish about their remarks and refused to accept his food order as a precaution.

Arpaio says the restaurant was targeted for an employer sanctions investigation last March when four people were arrested for identification theft.

The franchisee of the Mesa McDonald's says he takes the allegations seriously and is gathering facts. Richard Coulston says McDonald's has a zero tolerance policy against discrimination of any kind and his restaurant is no exception.
