A Message from Dr. Dake, Senior Vice President, UA Health Sciences

STRATEGIC PLAN UPDATE

Hundreds of ideas and perspectives. 26 Initiatives. Five Themes. A single vision.

After several months of meetings, focus groups and advisory sessions, I'm pleased to share that we've entered the implementation phase of the [UA Strategic Plan for Health Sciences](#).

What does this mean?

We will be working toward three core deliverables that will form the roadmap for execution of each initiative. To that end, we've identified a first wave of initiatives to pursue, led by a group of stellar [initiative owners](#) and small teams who will be developing **charters**, **business cases**, and **implementation plans** for each initiative to ensure this plan's success.

But I'd be remiss if I didn't mention another key element of this strategic plan: **foundational excellence**. Through this plan, we are committed to fostering a culture of transparency, diversity and inclusion, effective change management, enhanced communications, and organizational efficiency. It's time. *And it will take all of us to make happen.*

We can do this. Together. Bear Down.

Michael D. Dake, MD
Senior Vice President, UA Health Sciences
