UA Cancer Center Receives $8.6M Grant to Lead One of Three NCI Clinical Trials Networks
Under this funding mechanism, the UA Cancer Center serves as a lead academic organization with 12 affiliated organizations working together to perform early-phase cancer-prevention clinical trials. The network is composed of a team of physicians from diverse specialties, statisticians, clinical staff, data managers, pathologists, translational scientists and other personnel with extensive experience in early-phase (phase 0, I, or II) cancer-prevention clinical trials.
