The University of Arizona Smoking and Tobacco Policy

To the University of Arizona Health Sciences campus.

It has come to our attention that after nearly 5 years of becoming a No Smoking campus, there are increasing numbers of individuals smoking in the exterior spaces on the Health Sciences Campus. We would like to remind everyone of the UA Smoking and Tobacco Policy (which includes e-cigarettes) that became effective in August of 2014 and encourage staff to pass this information on to others who may be new to our university or perhaps just visiting. Please review the policy on the attached link if you are unsure of the current policy.
