University of Arizona Construction Update

Health Sciences Innovation Building (HSIB) Project - Pedestrian Access near Highland Garage

Two structures east of the Highland Garage will be demolished over the next week. As a result, the pedestrian shortcut between the Highland Garage and Cherry Ave. will be closed from Thursday, Oct 6th through Monday, Oct 17th. Pedestrians will need to use Mabel or Helen. (***Highlighted area in attached map***)

The area will remain fenced and used for construction storage for the duration of the HSIB project. A new pedestrian shortcut will be provided after Oct 17th.

If you have questions, please contact Melissa Dryden, Planning, Design and Construction, at mdryden@email.arizona.edu or 621-9251.
