[RESEARCH ADMINISTRATION - CLINICAL TRIALS NEWSLETTER](#)

Seminars/Lectures

[Department of Basic Medical Sciences Seminar Series, Efreem Lim, PhD - Role of the virome in infant health and disease](#)

[Southwest Environmental Health Sciences Center: Translational Research Seminar](#)

[Candidate for Director of Drug Discovery, Seminar & Vision Statement, May 3 at 3PM](#)

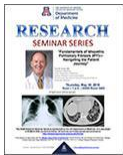

We have identified different novel routes to drug previously undruggable protein targets – specifically serine/threonine and tyrosine phosphatases. This presentation will show how we use a mechanism based approach and how these compounds work in the laboratory and clinic.

A recording of presentation will be available after the event, link:
